The secret itineraries of the Doge Palace

 min 2 – max 15

 2 hrs + transfer time
(see slide)

Description

The Doges’ Palace has always been the ultimate expression of the power of Venice. We will explore the Palace’s secret itineraries around the “Prison of the Leads” and we’ll discover the innumerable curiosities that, over the centuries, have been inextricably linked to the city’s remarkable history.

The Secret Itineraries of the Doge’s Palace meander through several rooms on a journey through the centuries of the Serenissima. This route offers an attractive and interesting presentation of the civil and political history of the city, its organization and its justice structures.

Where gondolas are born: the Squero

 min 2 – max 15

 2 hrs + transfer time
(see slide)

Description

Let's discover the secrets of the most typical of the Venetian boats, the gondola, through the visit of the most iconic symbols of Venice: the Squero.

Entering this place is like taking a step back in time, in a place where everything is the exclusive work of man. It takes about two months' work, strictly by hand, to make a gondola: the boats are moved manually and worked without the support of blueprints or drawings, only with the help of traditional tools, water and fire.

You will also discover what the forcolas are...

A goldsmith's workshop

Description

Gold is the most precious material, and it has multiple uses! Visit a family of Venetian goldsmiths who have been decorating the famous ornate gondolas with gold leaf for generations!

Let us introduce you to the Battiloro, a famous family of goldsmiths, who for almost a hundred years, have been responsible for adorning the gondola trappings with gold leaf. In this historic craft workshop of gold, silver and other precious metals you will observe the transformation process of gold into very thin leaves, which can be used for a number of refined applications.
